GLOBAL TRADING CO.

GTJZ 06 & 08

ELECTRIC SCISSOR LIFTS

POWERFUL. RELIABLE. EFFICIENT.

The GTJZ electric scissor lifts are built for performance, safety and ease of use. Ideal for industrial, maintenance and construction applications, these lifts deliver stable elevation and smooth operation in both indoor and outdoor environments.

500kg / 450kg Safe Working Load

6m / 8m Platform Height

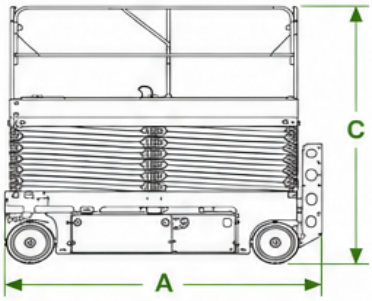

Built for Safety Stable, reliable and durable

Electric Drive Zero emissions & low noise

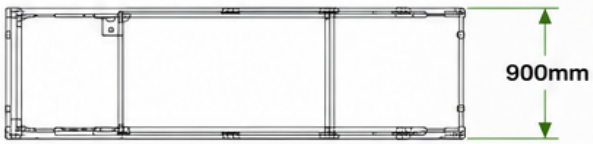

Compact & Maneuverable Easy to operate

MODELS

SM-AM-6
SM-AM-8

WORKBENCH EXTENSION

SPECIFICATIONS

Model	SM-AM-6	SM-AM-8
Maximum platform height	6m	8m
Maximum working height	8m	10m
Safe working load	500kg	450kg
Maximum number of workers	2	2
Overall machine length (A)	2.43m	2.43m
Overall machine width (B)	1.22m	1.22m
Overall machine height (C)	2.285m	2.42m
Workbench size	2.27m x 1.12m	2.27m x 1.12m
Platform extension size	900mm	900mm
Minimum ground clearance (folded)	0.1m	0.1m
Minimum ground clearance (lift)	0.019m	0.019m
Travel speed (folded)	4km/h	4km/h
Lifting travel speed	0.8km/h	0.8km/h

Up and Down speed	3-5min	3-5min
Minimum turning radius (outer wheel)	2300mm	2300mm
Minimum turning radius (inner wheel)	150mm	150mm
Battery type	Lead-acid maintenance-free battery	Lead-acid maintenance-free battery
Battery	4*6V/200ah	4*6V/200ah
Charger	24V/30A	24V/30A
Control voltage	24v/0.8kw*2	24v/0.8kw*2
Tire	381*127	381*127
Maximum climbing ability	25%	25%
Equipment weight	2060kg	2190kg

STANDARD EQUIPMENT FEATURES

- Ratio Control
- Automatic Pit Protection
- The Platform's Self-Locking
- Complete Walking Distance
- Traceless Tire
- 4×2 Drive
- Autobrake System
- Emergency Descent System
- Emergency Stop Button
- Youtube Explosion
- Fault Diagnosis System
- Tilt Protection System
- Buzzer
- Lampshade
- Operating Schedule
- Safety Maintenance Support
- Standard Hole For A Forklift
- Fold Fence
- Extension Platform
- Charging Protection
- Strobe Light
- Downward Anti-Slip
